

AARON IS FAMILY OWNED AND OPERATED BY A MOTHER AND DAUGHTER TEAM OF REGISTERED NURSES. Since 1988, Aaron has been a leading home care provider. We've earned our reputation for professionalism and personal concern by serving our client's home healthcare needs, as we would our own loved ones, 24 hours a day, seven days a week. We welcome you to our family. Aaron Healthcare can help make your, or your loved one's road to recovery a smooth one. So call us any time of the day or night. Any day of the week. You always have instant access to Aaron's highly qualified home care professionals and our personalized approach to quality home care.

REGISTERED NURSES, NURSE AIDES, THERAPISTS. Aaron Healthcare offers virtually every professional home health care service. Our employees are trained professionals and always work under the direction of the patient's physician. Whether the care plan requires a registered nurse or a licensed practical nurse, you can count on our skilled employees to carry out the prescribed treatment instructions.

PROFESSIONAL SERVICES. We can also provide the professional services of physical, speech and occupational therapists, as well as nutritional counseling and social services.

PARAPROFESSIONAL SERVICES. Sometimes patients may not require professional nursing skills, but they do need help with day-to-day activities. Aaron's nursing assistants help with the personal care and daily activities of patients with chronic disabilities, acute care needs or terminal illness.

HOMECARE SERVICES

AARON HEALTHCARE
is committed to providing the
highest level of care in the home.

An important ingredient in the recovery process is the COMFORT and SECURITY of being at home. The feeling of INDEPENDENCE it brings has a powerful effect that most patients and their families prefer.

When patients are ready to go home but not ready to care for themselves, home health care provides a welcome solution. Home health PROFESSIONALS must be well-qualified, CARING, responsible and fully capable of carrying out physicians' instructions.

Our total case management approach SIMPLIFIES and STREAMLINES setting up a home care program. Our DEDICATED healthcare professionals have the skills and experience to provide a wide range of services, and we are keenly aware of how important it is to emphasize WARMTH and PERSONAL TOUCH in the care we provide.
